EDUCATION

Study World College of Engineering

Expected: June 2028

B.E. Computer Science and Engineering (Cyber Security)

- Government Higher Secondary School ,Tamil Nadu State Board| (Class X) - 72%
- Government Higher Secondary School | Tamil Nadu State Board | (Class XII) - 74%

EXPERIENCE

Navodita Infotech

Dec 2025 – Jan 2026

Cyber Security Intern

- Assisted in network and web application security assessments.
- Performed basic vulnerability analysis and documented security findings.
- Strengthened practical skills in cybersecurity tools and secure practices.

Jyesta Corporate Entity

Sep 2025 - Nov 2025

Cyber Security Intern

- Gained hands-on experience in ethical hacking, vulnerability assessment, and cybersecurity fundamentals.
- Practiced network and web application security testing in a controlled environment.
- Documented findings and followed secure development and security best practices.

Elevate Labs

May 2025 – Jun 2025

Cyber Security Analyst Intern

- Learned security monitoring, vulnerability assessment, and threat analysis concepts.
- Used industry-standard security tools for basic security assessments.
- Prepared security documentation and reports based on assessment findings

PROJECTS

TalkShield – AI-Powered Scam & Spam Call Detection

Technologies: React.js, Node.js, Flask, Python, MySQL

- Developed a real-time platform to detect and classify scam and spam calls using AI-assisted analysis.
- Implemented secure user authentication and call reporting features.
- Designed a responsive interface with a scalable backend for efficient data processing.

SentinelX – Cybersecurity Intelligence Platform

Technologies: React • FastAPI • PostgreSQL • Docker • Networking • Cybersecurity • Data Visualization

- Built a platform for internet exposure analysis and cybersecurity intelligence.
- Integrated OSINT techniques to gather and analyze publicly available security information.
- Developed dashboards for threat visibility and security insights.

TECHNICAL SKILLS

Programming: Python, Java, JavaScript, C, SQL

Frameworks: React.js, Node.js, Express.js, Flask

Databases: MySQL

Cybersecurity: Wireshark, Nmap, Burp Suite, Kali Linux, Git, GitHub.

Core Concepts: Network Security, Web Security, Penetration Testing, Vulnerability Assessment, OSINT, OWASP Top 10, Secure Coding

CERTIFICATIONS

Build and Deploy AI Apps with Google AI Studio | HCL GUVI | 2026

Ethical Hacking for Beginners | HCL GUVI | 2026

Network Security Foundation | Udemy | 2025

Cybersecurity Awareness | HP LIFE | 2025

Cyber Security Intern | Elevate Labs | 2025

Tata Group – Cybersecurity Analyst Job Simulation | Forage | 2025

Mastercard – Cybersecurity Job Simulation | Forage | 2025

Commonwealth Bank – Introduction to Cybersecurity Job Simulation | Forage | 2025
